Have you had a chance to review the adit data ? I need to follow up with La Plata County and share results with them very soon but wanted any feedback from OEM. We are working on a public statement to go with posting of the data and we have a data summary from Deb Mckean providing some interpretation of the results. Please let me know where you are on this.

Thanks

Subject: RE: GKM Mine Adit Sampling

Moira, looking back through my emails I did not find data validation reports for all analyses for both water and sediment. I did find a number of Test America reports on results, but I only found validation reports for sample delivery groups 680-117013-2 and -5. Do you have a complete set of validation reports (except rad) that you can send me?

Thanks

Hi All,

Validated radionuclide data is not yet available. The revised preliminary EDD received yesterday did not include total propagated uncertainty (TPU). This is a value that is new to the Scribe EDD format so it took some time to determine where it fits best. This data is a priority for both the lab and the validators, and we are working through this issue as fast as possible.

Thanks,

Moira Pryhoda

I have attached today's version of the Mine Adit sample tracker, current as of 10/14/15.

An issue was caught with the Accutest EDD: In the two hexachromium duplicate results, the result was "0" but there was a "Y" in the detection field. This has been corrected by the lab and the new preliminary EDD is attached here. This EDD is in a priority position for re-validation. Additionally, Dioxin results for the sediment sample were received today. I have attached the report and preliminary EDD, which is also in a priority position for validation.

Thanks,

Subject: GKM Mine Adit Sampling

All,

I have attached the preliminary results data package and EDD for the solid sample which includes the following analytes:

Ammonia

Nitrogen, Total Kjeldhal

TAL Metals

Mercury

PCBs

VOCs

Cyanide

Nitrate as N

Nitrate/Nitrite as N

Nitrite as N

This data package has been sent to validation. We can expect the validated results by the end of today.

Thank you,

Moira Pryhoda
